

AG-NAV Inc. 17705 Leslie Street, Suite 11- Newmarket, Ontario - Canada - L3Y 3E3
Tel: 905-967-0909 Fax: 905-967-0808

Some Features and benefits of the Ag-Nav system and its software

- **1 Year warranty.**
- **24/7 customer support.**
- **Free software upgrades for the life of the system.**
- **Capable of receiving differential corrections from WAAS, Beacon and Satellite sources.**
- **Software ready to interface with flow control (Auto cal II)**
- **Software ready to interface with Crop Hawk 7B or later model.**
- **Variable Rate**
- **RPM Counter**
- **User friendly.**

- **Mapping – Aerial and ground mapping with real time corrections. Generate area on the fly or digitized**
- **Large selection of flight patterns.**
- **Multiple area application. Up to 30 areas at once.**
- **Up to 500 corners or vertices per area.**
- **Exclusion zones generation.**
- **Auto swath adjustment.**
- **Waypoint generation, up to 300 WPTS, many methods of entry.**
- **US or Metric measurement system.**
- **Automatic on off spray.**
- **Data transfer – Upload and Download files via floppy disk.**
- **Automatic file compression for more disk storage.**
- **Storage – Solid state hard drive for large data storage.**
- **Five position switch remote control.**

- **Super bright light bar or steering indicator.**
- **Programmable Light bar.**
- **Color Moving Map Display – Able to see the aircraft in relation to the application area in real time.**
- **Able to digitize maps from scanned images, shape files and DXF files.**
- **GIS compatible - Data from a spray job can be converted into DXF and Shape file format so it can be used as a layer of information in GIS systems.**
- **Print – able to print data files with pre-selected colors.**
- **Generates EMF (metafile) file**

Faster processor and smaller in size. We continue to upgrade our software to provide our customers with the best options available either in flight navigation and/or post processing software.
