

# How to Install SprayView

## 1. Installation from CD:

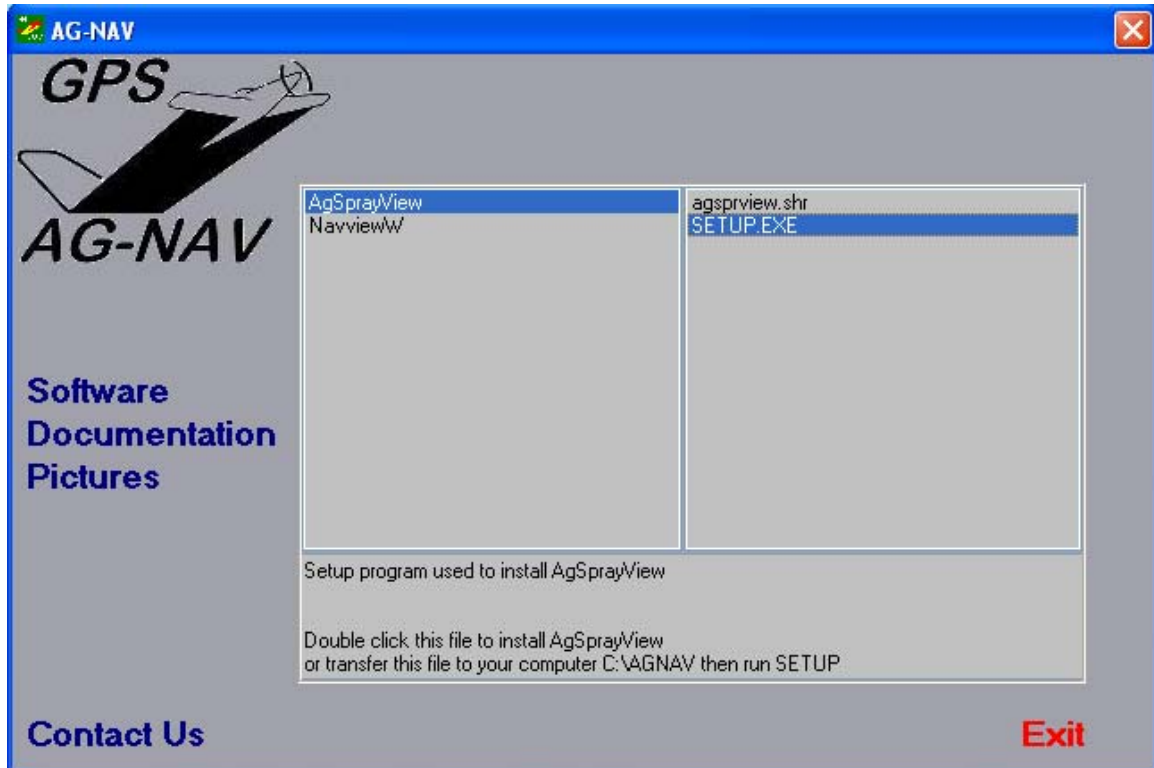

If you have a CD with the SprayView software, you can install SprayView from the CD. To do this,

- 1) Put the SprayView CD into the CD drive.
- 2) Wait for a few seconds, the CD will run automatically and show a short video clip. Then you will see the following screen:

- 3) The SprayView CD contains the AgSprayView and NavviewW software. Double click AgSprayView.

4) You will see the following screen:

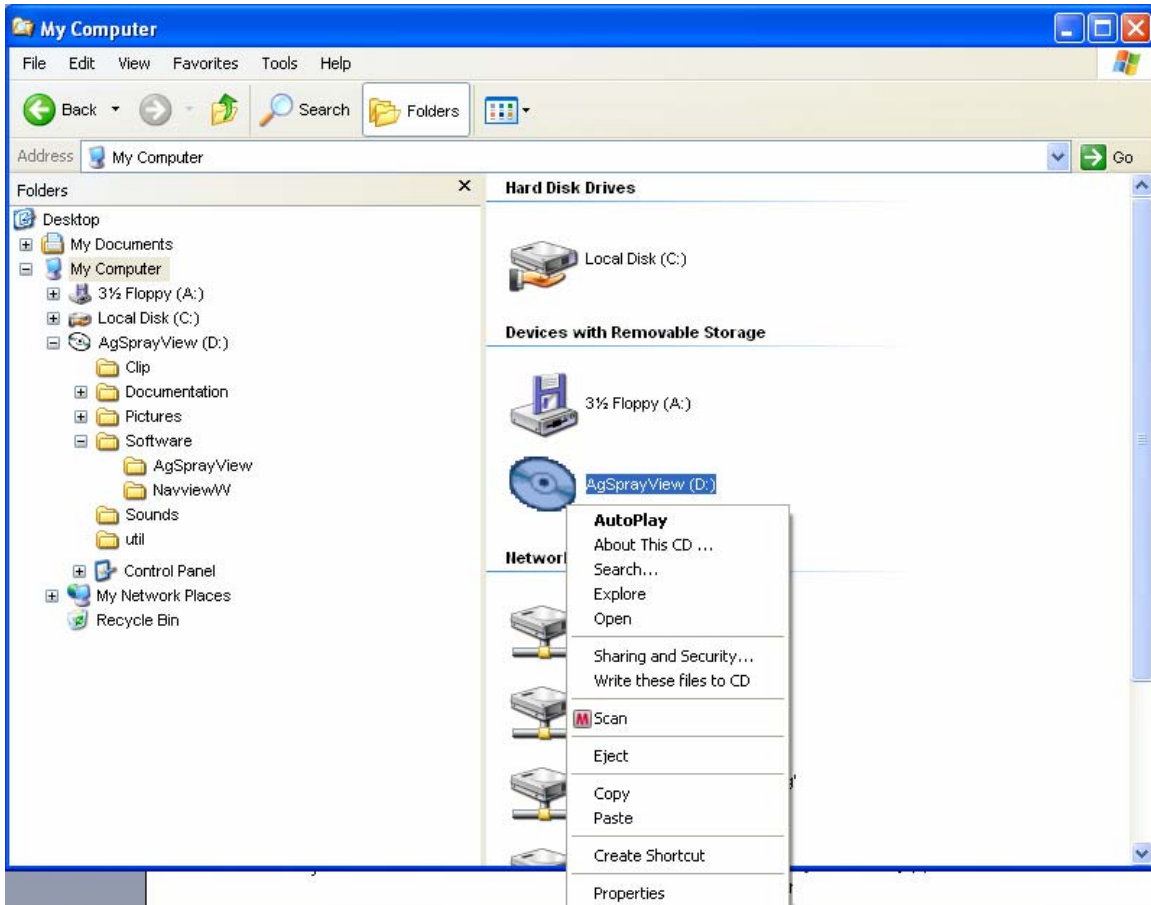

- 5) Double click SETUP.EXE to start installing AgSprayView.
- 6) Follow instructions to complete the installation.
- 7) Drag AgSprayView icon to desktop for your convenience.
- 8) Follow instructions in section 4 to register the software.

## 2. Installation from Files:

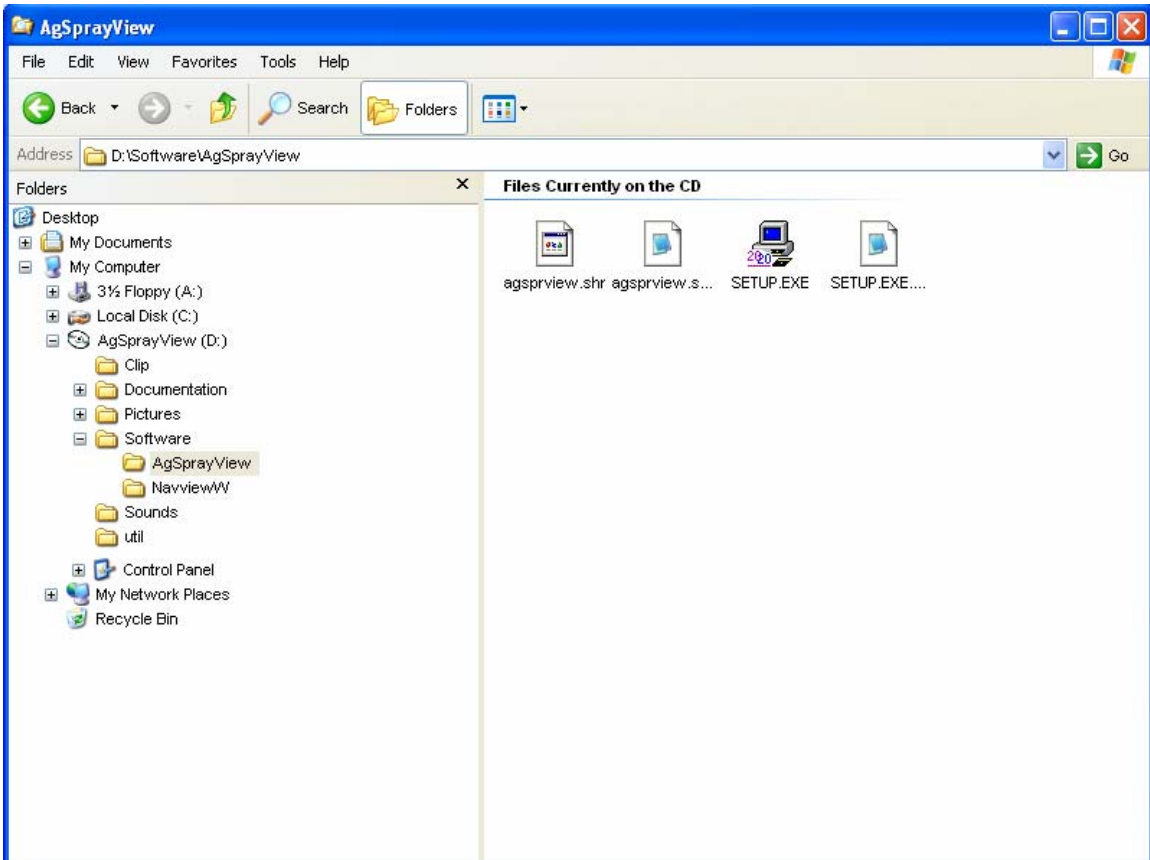

If the SprayView CD does not run automatically after you put it in the computer for a few seconds, do the following:

- 1) Select or run My Computer. This may be on your Desktop or you have to select Start → My Computer.
- 2) On My Computer window, select the CD drive, for example "AgSprayView D:".

- 3) Right click on the CD drive. You will see a window with a popup menu similar to this:

- 4) Select "Explore" from the popup menu. This will show the contents of the CD.
- 5) Select the folders "Software", "AgSprayView". The files in the AgSprayView folder are shown.

- 6) Run "SETUP.EXE".
- 7) Follow instructions to complete installation.
- 8) Drag AgSprayView icon to desktop for your convenience.
- 9) Follow instructions in section 4 to register the software.
- 10) The SprayView manual is in the Documentation folder.

### 3. Installation from Files:

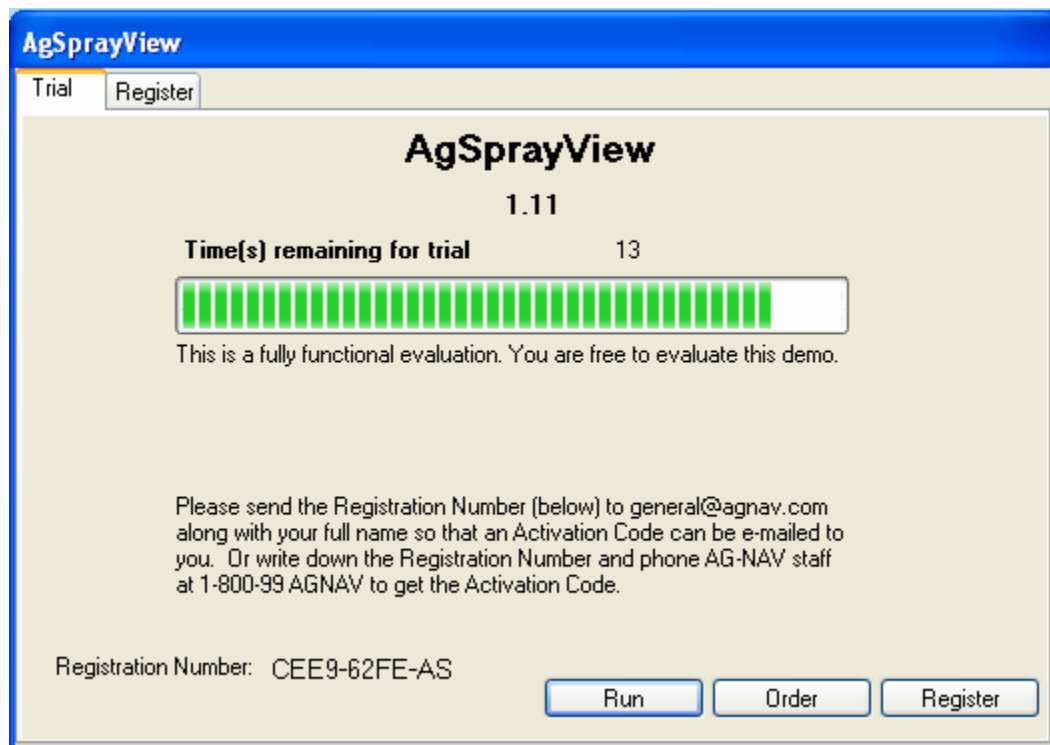

If you receive the installation file by email, for example **AgSprayView12.zip**, you should save it to your hard drive. To install SprayView, do the following:

- 1) Unzip the file to get the installation. The AgSprayView software installation includes two files: SETUP.EXE and SPRVIEW.SHR. You should make directory or folder called AGNAV. It is strongly recommended that you make the folder C:\AGNAV and save in this folder all files created by or created for your AGNAV or Guia system. You can save the SprayView installation to this folder as well.

- 2) Run SETUP.EXE
- 3) Follow instructions to complete installation.
- 4) Drag AgSprayView icon to desktop for your convenience.
- 5) Follow instructions in section 4 to register the software.

#### 4. Register SprayView:

- 1) Run SprayView by clicking the AgSprayView icon. Or you can run it from the folder you install SprayView, for example C:\AGNAV\SPRAYVIEW.EXE.
- 2) When you get the following window,

Write the Registration Number on a piece of paper exactly as you see on the screen, for example CEE9-62FE-AS. **DO NOT EXIT SPRAYVIEW UNTIL YOU FINISH REGISTRATION.**

- 3) Call AG-NAV at 1-800-992-4628 or 1-905-967-0909
- 4) Tell AG-NAV that you want to register the SprayView software and give AGNAV staff your name or company name and the Registration Number.

- 5) When you get the Unlock Code (License Key) and UserName from AG-NAV, click the Register tab at the top of screen.

AgSprayView

Trial Register

Click Register Tab

Thank you for choosing to register this product.

UnLock Code: Enter License Key

UserName: Enter User Name

Registration Number: CEE9-62FE-AS

OK

Cancel

- 6) Enter the License Key on the UnLock Code exactly as given to you. All letters must be in CAPITAL. For example "ABC7-8765-1B4C-ABCD-678A".
- 7) Enter the User Name exactly as given to you.
- 8) Click the OK button.

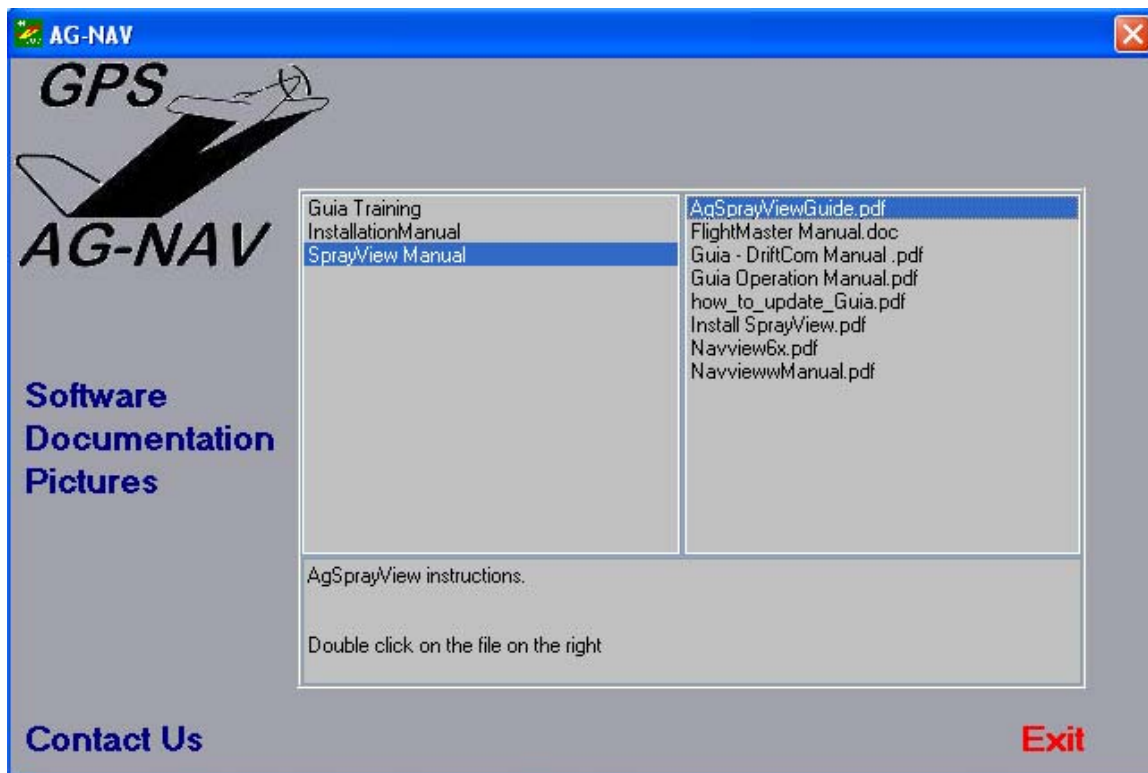

Installation is now complete.

If everything is OK, SprayView will run normally in your computer. Contact AG-NAV staff if you have a problem at any step.

Note that if you receive a trial SprayView, you can run the software for 15 times or until the expiry date is met. You can register SprayView at any time.

## 5. SprayView Documentation:

The SprayView manual can be found on the AgSprayView CD. To read the manual, put the CD into your computer. After the initial video clip, select **“Documentation”**, then **“SprayView Manual”** and then **“AgSprayViewGuide.pdf”**.

This is an Adobe pdf file. Your computer must have Adobe Reader software to open it. If you don't have Adobe Reader, you can download a free software from the internet. You can go to this site to download:

**“<http://www.adobe.com/products/acrobat/readstep2.html>”**

The AgSprayView manual shows you all steps to do from copying AGNAV area and flight data files to your PC to printing out a report with a map downloaded from Google Map.

SprayView is NavviewW with advanced features like downloading a map from internet for your spray areas, generating a report with map, converting flight data in Shapefile format to AGNAV format. You can find more information about other features in the NavviewW manual.
